

ROSE AVENUE

LOCATION MAP

Away from the city buzz but well connected; distant from the hustle bustle but still very much alive; this is what Rose Avenue is all about.

What you find here are plots of various sizes that are dispersed throughout the residential township offering diverse locations and views. The best part is there is no interference of any builders and developers here. You have complete control of what kind of home you desire and what all amenities you want installed. This is the ideal place to give your thoughts and ideas a tangible shape in the form of a dream house that you have always wanted
